

Africa is a **big** place - however at Milestones we believe '**small is beautiful**' when it comes to lodges and camps. Whether it's the number of beds in a camp, the guide to guest ratio on game drives or the atmosphere around a camp fire at night - the smaller camps more often than not provide the attention to detail and ambience that is most memorable. Milestones clients **do** 'small' very well. Milestones will also be keeping you up to date in future with the **Laikipia Wildlife Forum** in Kenya - find out more below...
